City Road on a weekday morning tells you most of what you need to know about roofing **roofers cardiff** in Plasnewydd. Cars are parked bumper to bumper on both sides, delivery vans stop wherever they can, and the side streets between City Road and Albany Road are lined with Victorian terraces sitting shoulder to shoulder. Redland Roofing Cardiff is a family-owned roofing contractor run by John Owen, and the team knows these streets well. Getting a roof fixed here is as much about planning access as it is about slates and lead. Most homes in Plasnewydd are two-storey terraces with Welsh slate roofs, a shared chimney stack on the party wall and a rear outrigger with its own small roof over the kitchen or bathroom. That layout creates a few practical puzzles. The front pitch usually needs scaffolding from the pavement, which means thinking about parking, pedestrians and the neighbours either side. The rear outrigger is often reached through a narrow garden or a back lane that is barely wider than a wheelie bin. Good roofers in Cardiff plan this before anyone arrives, so the job runs quickly and the street isn't blocked for longer than it needs to be. Neighbours matter too. On a terrace, your roof shares a ridge line, a chimney and sometimes a valley gutter with the house next door. If a slate slips on your side, the water can find its way into both properties. John and his team look at how your roof meets the neighbouring ones, check the lead flashings around the shared stack and explain what they've found in plain terms. Customers on Google often mention that John explains the problem clearly and sends photos and videos during the job, which helps when you need to show a neighbour or a landlord what is going on up there.
