At its core, Crazy Time is a live dealership video game reveal hosted by charismatic presenters in a dynamic, high-tech studio. The main function of the game is a huge, upright mechanical wheel divided into 54 sectors. Gamers put bets on the sectors where they think the wheel will stop.

What sets Crazy Time apart from standard table games is its combination of RNG (Random Number Generator) slots and live interaction. Each and every single spin of the primary wheel is accompanied by the "Top Slot," a mini-slot device located above the wheel that can designate random multipliers to particular betting sectors, drastically increasing the prospective payment.

### The Game Segments Explained

The 54 sections on the wheel are split in between numbered bets (1, 2, 5, and 10) and four distinct benefit rounds. Here is how the wheel is dispersed:

Segment/ Bonus Variety of Segments on Wheel Payment/ Multiplier Potential **Number 1** 21 1:1 **Number 2** 13 2:1 **Number 5** 7 5:1 **Number 10** 4 10:1 **Coin Flip** 4 Variable (approximately 5,000 x) **Cash Hunt** 2 Variable (approximately 10,000 x) **Pachinko** 2 Variable (up to 10,000 x) **Crazy Time** 1 Variable (approximately 20,000 x)

## The Four Immersive Bonus Rounds

The main motorist of enjoyment in Crazy Time is its four bonus offer video games. When the wheel stops on a perk section, all players who positioned a bet on that section are transported from the main studio into an unique augmented-reality minigame.

### 1. Coin Flip

The simplest of the bonus rounds, this game features a digital coin with a red side and a blue side.

- **How it works:** Each side is assigned a random multiplier before the flip. The coin is automatically turned by a device, and whichever side lands deal with up awards the matching multiplier to the gamer's bet.

### 2. Money Hunt

This perk round takes players to a massive virtual shooting gallery screen featuring 108 random multipliers concealed behind different symbols (like a cactus, a target, or a sheriff's hat).

- **How it works:** Players are given a limited amount of time to goal and fire a cannon at a symbol of their option. As soon as the timer ends, all symbols expose their surprise multipliers, and the gamer collects the multiplier they strike.

### 3. Pachinko

Influenced by the traditional Japanese arcade video game, Pachinko includes a radiant, vertical wall filled with physical pegs.

- **How it works:** The host drops a radiant puck from the top of the wall. As the puck cascades downward, bouncing off the pegs, it eventually lands in one of the landing zones at the bottom. Each zone contains a multiplier or a "DOUBLE" sign, which doubles all multipliers on the board and sets off a re-drop.

### 4. Crazy Time

The ultimate reward round takes gamers behind a red door into a surreal, vibrantly colored virtual wonderland including a massive secondary wheel.

- **How it works:** Players must select among 3 flappers (Green, Blue, or Yellow). The host presses a giant red button to spin the giant wheel. Whichever sector the chosen flapper points to when the wheel stops is the multiplier awarded. If the wheel lands on "DOUBLE" or "TRIPLE," all multipliers on the wheel are doubled or tripled, and the wheel spins once again up to an optimum cap of 20,000 x.
