On each level of the tower, a gamer should select one tile (or block) out of a set variety of choices.

- **The Goal:** Reach the top of the tower without hitting a hidden hazard (often represented as a bomb, skull, or trap).
- **The Reward:** With every effective step upward, the multiplier increases. Players can pick to "cash out" their earnings at any time or push their luck for a greater payment on the next tier.
- **The Risk:** Selecting the wrong tile ends the round immediately, and the player loses their stake for that run.

Difficulty Mode	Grid Layout (Per Row)	Safe Tiles vs. Traps	Danger Level	Typical Multiplier	Growth
Easy	4 Tiles	3 Safe/ 1 Trap	Low	Slow and consistent	
Medium	3 Tiles	2 Safe/ 1 Trap	Moderate	Well balanced	
Tough	2 Tiles	1 Safe/ 1 Trap	High	Rapid acceleration	
Specialist	5 Tiles (Varies)	3 Safe/ 2 Traps	Really High	Explosive payouts	

This modular technique ensures that casual players looking for an unwinded session can stay with the Easy or Medium modes, while thrill-seekers hunting for enormous multipliers can check their fate on Hard or Expert settings.
