At the start of a battle, all individuals pay an entry charge comparable to the overall expense of the picked cases. When the match starts, the system opens the cases simultaneously for all gamers round by round.

2. **Select or Create a Lobby:** A player can either sign up with an existing public lobby produced by another user or host a custom battle.
3. **Pick the Cases:** The host chooses which cases will be opened during the battle. This can vary from cheap, standard cases to high-end, premium collections.
4. **Identify Player Count:** Battles generally accommodate 2, 3, or 4 gamers, or can be played in "Team vs. Team" modes (e.g., 2v2).
5. **Set Special Rules:** Hosts can toggle modifiers to alter the gameplay dynamic (more on this listed below).
6. **The Reveal:** Cases open instantly, culminating in a winner declaration and the transfer of all dropped skins to the winner's website inventory.
