What is Big Bass Crash?

Established through the partnership of Pragmatic Play and Reel Kingdom, *Big Bass Crash* takes the familiar, beloved visual identity of the *Big Bass* slot series and transplants it into a dynamic "crash" format.

For those not familiar with the crash game genre, the facility is basic: an object (in this case, a fisherman drawing in his catch) moves along an increasing multiplier curve. The multiplier increases in real-time as the round advances. The gamer's goal is to squander their earnings before the multiplier unexpectedly "crashes" or the line snaps. If a gamer cashes out effectively, they win their preliminary stake multiplied by the cash-out worth. If the crash happens before they cash out, the bet is lost.

Unlike conventional slots governed entirely by static spin outcomes, Big Bass Crash grants gamers a degree of active control over the timing of their wins and losses.
