What is a Solana Casino?

A Solana casino is an online gambling platform that natively incorporates the Solana (SOL) blockchain. Unlike conventional online gambling establishments that count on fiat currency (GBP, EUR) and standard payment processors, or older crypto casinos that mainly use Bitcoin, these platforms utilize Solana's native cryptocurrency for deposits, wagers, and withdrawals.

Because of Solana's unique architecture-- which combines Proof-of-History (PoH) with Proof-of-Stake (PoS)-- these gambling establishments can process countless deals per second. This technological advantage translates directly to the user experience, enabling near-instantaneous deposits and payouts without the discouraging waiting durations typical in conventional online gaming.
