What Are Live Blackjack Apps?

Live blackjack apps are dedicated mobile applications-- or mobile-optimized websites-- offering table games hosted by expert human dealers. Unlike traditional digital blackjack, where a computer algorithm deals the cards, live dealer games use physical cards, genuine blackjack tables, and genuine live roulette wheels or card shoes.

Cameras catch the action from multiple angles, and advanced Optical Character Recognition (OCR) technology equates the physical card data into digital information that appears immediately on the gamer's mobile screen. Gamers can put bets, chat with the dealership by means of text (and often voice), and make standard gameplay decisions-- hit, stand, double down, or split-- with simply a tap of a finger.
