Understanding the Wheel Segments

The 54-segment wheel is divided into numbers and bonus offer game symbols. Each number represents a payout multiplier (e.g., a bet on '1' pays 1:1, '2' pays 2:1, and so on), while the signs trigger the reward rounds.

Here is a breakdown of how the wheel is dispersed:

- **Number 1:** 21 segments
- **Number 2:** 13 sections
- **Number 5:** 7 sectors
- **Number 10:** 4 segments
- **Coin Flip:** 4 sections
- **Pachinko:** 2 sections
- **Cash Hunt:** 2 sectors
- **Crazy Time:** 1 section

Because the bonus rounds appear less often on the wheel, they are the most expected outcomes of the game.

The Four Thrilling Bonus Rounds

The real magic of Crazy Time occurs when the wheel arrive on a benefit sector. Gamers who have placed a wager on that particular benefit are carried from the main game studio into a secondary augmented-reality or physical perk round.

1. Coin Flip

- **Frequency on Wheel:** 4 sectors
- **How it works:** A basic red-and-blue coin is turned by a maker. Before the flip, a random multiplier is designated to both the red and blue sides. Whichever side lands deal with up wins the multiplier for the player. If the multipliers are low, a "Rescue Flip" can in some cases be activated for another possibility at greater benefits.

2. Pachinko

- **Frequency on Wheel:** 2 sections
- **How it works:** Inspired by the traditional Japanese arcade video game, players are revealed a massive Pachinko wall filled with pegs. The host drops a puck from the top, and it bounces down randomly up until it lands in one of the multiplier slots at the bottom. If the puck arrive at a "DOUBLE" slot, all multipliers on the board double, and the puck is dropped again.

3. Money Hunt

- **Frequency on Wheel:** 2 segments
- **How it works:** A huge screen shows 105 random multipliers concealed behind shooting gallery symbols (like stars, targets, and bunnies). Gamers use a virtual crosshair to aim and contend one symbol before the countdown timer expires. Once the timer ends, all signs expose their concealed multipliers, and players receive the multiplier corresponding to their picked target.

4. Crazy Time

- **Frequency on Wheel:** 1 segment
- **How it works:** This is the supreme perk round. The host opens a red door to expose an enormous, surreal virtual world with an even larger wheel. Gamers need to choose among 3 flappers (Green, Blue, or Yellow). The wheel is spun, and whatever multiplier the picked flapper points to is granted. Much like Pachinko, landing on "DOUBLE" or "TRIPLE" increases all the worths on the wheel for a re-spin, causing potentially staggering payments.
