What is an Online Crash Casino?

An online crash gambling establishment is a gambling platform-- frequently crypto-focused-- that specializes in or greatly features "crash" style wagering video games. Unlike standard casino games where the outcome is identified by a spinning reel or a dealt card, a crash game focuses on a quickly increasing multiplier.

The idea is brilliantly easy:

1. **The Launch:** A multiplier starts at 1.00 x and begins climbing upward.
2. **The Climb:** As the multiplier rises, the potential payout grows.
3. **The Crash:** At any randomized 2nd, the video game "crashes."
4. **The Goal:** Players must squander *before* the crash occurs. If they squander successfully, they win their bet multiplied by the existing figure. If the video game crashes before they cash out, they lose their stake.

Popular titles like *Aviator*, *JetX*, and *Space XY* have actually turned this mechanic into a global phenomenon.

- **Double Betting:** Many crash games permit gamers to place two independent bets on the very same round, making it possible for split methods (e.g., squandering one bet early and letting the other trip).

3. The Martingale Strategy
