### What is Big Bass Crash?

At its core, Big Bass Crash is a multiplayer crash game. Unlike conventional slots where results are figured out by paylines and signs, crash video games run on an escalating multiplier curve.

In Big Bass Crash, players sign up with an angler who casts his line into the water. As the line sinks, a multiplier begins to rise from **1.00 x** up. The objective is easy yet nerve-wracking: **money out before the line snaps or the catch gets away**.

If a gamer cashes out in time, they win their stake multiplied by the existing value. If the game crashes before the cash-out, the stake [Big Bass Crash Gambling](#) is lost.
