Every card holds a specific point worth:

- **Aces:** Worth either 1 or 11, depending on which worth benefits the player's hand more.

2. **The Deal:** The dealership disperses two cards face-up to each participating player and one card face-up (and one face-down, depending upon the video game version) to themselves.

3. **Player Decisions:** Starting from the gamer to the dealership's left, each private decides how to play their hand.
4. **Dealer's Turn:** Once all gamers complete, the dealer reveals their face-down card and must follow strict house guidelines (usually drawing to 16 and standing on all 17s).
5. **Payouts:** Winning hands are paid out immediately before the next round begins.
