What is a Live Casino?

A live casino is an online gaming platform that streams real-time table games from expert studios or real land-based gambling establishments. The setup utilizes high-definition (HD) electronic cameras, several streaming angles, and Optical Character Recognition (OCR) innovation. OCR translates physical information from the game (like a dealt card or a roulette number) into digital information, permitting gamers to place bets perfectly through their smart devices or computer systems while seeing the action unfold live.
