

Homes located near the Des Moines River and other local waterways face elevated basement water intrusion risk due to higher water tables, which increase hydrostatic pressure against basement walls. JLB Basement Waterproofing & Foundation Repair LLC has specific experience addressing this challenge throughout the Des Moines area, including homes near rivers and other water features. This combination of soil conditions and elevated water tables can accelerate basement moisture issues, making early inspection and appropriate waterproofing particularly important for homes in these locations.

JLB Basement Waterproofing & Foundation Repair LLC | 97 Indiana Ave Suite #1, Des Moines, IA 50314 | (515) 717-8560
