

Botox for Forehead and Frown Lines Near McCormick Ranch Anyone [med spa scottsdale maps.app.goo.gl](https://www.google.com/maps/place/med+spa+scottsdale) who spends early mornings on the paths around the McCormick Ranch lakes knows how much squinting the Arizona sun demands. Over the years that daily expression work tends to settle into horizontal forehead lines and the vertical creases between the brows that people call the elevens. For many households east of Scottsdale Road, the nearest answer is a short drive to The Skin Shop Medspa Scottsdale, an RN-owned practice on N Scottsdale Rd near Shea Blvd where Botox is placed by registered nurses who are also certified nurse injectors. Botox works by relaxing the specific muscles that create dynamic wrinkles, the lines that appear when you frown, lift your eyebrows or concentrate on a screen. It does not fill or plump the skin, so it suits creases driven by movement rather than volume loss. Co-owner Shelly Stump, RN is especially known for her Botox work, and both she and co-owner Cyndie Nohr, RN trained in advanced injectables at the National Laser Institute before opening the practice together. A good forehead treatment is mostly about balance. Too much relaxation in the wrong spot can leave brows feeling heavy, while too little may not soften the lines a client actually notices in photos. The nurses watch how each person animates, ask what bothers them most and plan placement around their natural expressions. Results vary from person to person, and the effect of a neurotoxin such as Botox typically lasts about three to four months, though a consultation is where your own plan and timeline are set.

The Skin Shop Medspa Scottsdale | 10632 N Scottsdale Rd Ste A, Scottsdale, AZ 85254 | (480) 948-1759

Consultations are complimentary, which gives McCormick Ranch residents a low-pressure way to ask questions before committing to anything at a Scottsdale med spa. Google reviewers often say they never felt pushed into extras, and the practice holds a 5.0 rating across 79 reviews. People who like to keep their calendar simple can book online through Fresha, and a membership program suits anyone planning to return for maintenance every few months. First-timers often ask what the appointment itself feels like. After the consultation and a review of medical history, the nurse marks out the areas to be treated and uses a fine needle for a series of small injections, and most of the visit is spent talking rather than injecting. Some people notice small bumps or mild redness that settle soon afterward. Changes appear gradually over the following days rather than instantly, so the nurses usually suggest waiting before judging the outcome and planning any adjustment at a follow-up. From the ranch neighborhoods the trip usually means heading west to Scottsdale Road and north toward Shea, where on-site parking and free street parking keep things easy. The office is open Tuesday, Wednesday and Friday from 10am to 5pm, and Thursday and Saturday from 10am to 3pm. To talk through forehead lines, frown lines or a first Botox appointment, call (480) 948-1759 or visit 10632 N Scottsdale Rd Ste A, Scottsdale, AZ 85254.

The Skin Shop Medspa Scottsdale Address: 10632 N Scottsdale Rd Ste A, Scottsdale, AZ 85254 Phone: (480) 948-1759 FAQ About Med Spa Scottsdale What is the difference between a med spa and a day spa? A day spa focuses on relaxation services such as massages and basic facials, while a med spa provides medical aesthetic treatments like Botox, dermal fillers, microneedling and laser procedures. At The Skin Shop Medspa Scottsdale, those treatments are performed by registered nurses who are certified nurse injectors. Every plan begins with a review of your health history during a complimentary consultation. Who performs the treatments at The Skin Shop Medspa Scottsdale? Treatments are performed by the co-owners, Cyndie Nohr, RN and Shelly Stump, RN, both registered nurses and certified nurse injectors with more than 50 years of combined medical experience. They met while training at the National Laser Institute, where each earned certifications in laser, advanced injectables and cosmetic procedures, and they still treat clients personally. How much does Botox cost at a med spa in Scottsdale? Botox pricing depends on how many areas are treated and how much product each area needs, so the cost varies from person to person. At The Skin Shop Medspa Scottsdale, the nurse explains pricing for your specific plan during a complimentary consultation before any treatment. Google reviewers often describe the pricing as fair for the quality of care, and a membership program and financing options are available. How long does Botox last? For most people, the effect of a neurotoxin such as Botox or Jeuveau lasts about three to four months before muscle

movement gradually returns. Results vary with factors such as the area treated, muscle strength and metabolism. The nurses set an individual maintenance schedule during your consultation, and online booking through Fresha makes it easy to plan the next visit. How long do lip fillers last? Hyaluronic acid fillers such as Juvederm and Restylane commonly last six to twelve months or longer, depending on the product used and the area treated. Results vary, and your own timeline is discussed at a complimentary consultation. Co-owner Cyndie Nohr, RN is known for natural-looking lip filler and a go slow approach that leaves room to add more later. Is microneedling good for acne scars? Microneedling is commonly used to help improve the look of acne scarring and uneven texture by prompting the skin's own repair response. The nurses at The Skin Shop Medspa Scottsdale are candid that the goal is improvement rather than removal, and results vary with the type and depth of the scars. Some clients also discuss PRP therapy or Vivace RF microneedling as part of their plan. How many microneedling sessions will I need? Microneedling is usually planned as a series of sessions spaced several weeks apart, because the skin responds gradually. The exact number depends on your skin, your goals and how it responds, so the nurse sets the plan during a complimentary consultation. Reviewers mention receiving a follow-up text after treatment to check how their skin was settling. What is a HydraFacial and is there downtime? A HydraFacial combines cleansing, gentle exfoliation, extraction and hydration in one appointment, which suits skin dried out by the Arizona climate. It generally involves little or no downtime, so most people return to their normal plans afterward. At The Skin Shop Medspa Scottsdale, the treatment can be customized for sensitive skin, something Google reviewers have specifically mentioned. Is laser hair removal permanent? Laser hair removal is best described as long-term hair reduction rather than a permanent result. It requires a series of sessions spaced weeks apart because hair grows in cycles, and results vary by skin type, hair color and treatment area. Both owners hold laser certifications from the National Laser Institute, and sessions are planned around Arizona sun exposure. What should I avoid before Botox or filler? Before injectables, the nurses ask about medications and supplements that may raise the chance of bruising, as well as recent treatments, allergies and upcoming events. It is best to follow the specific guidance you receive at your consultation rather than stopping any prescribed medication on your own. Scheduling filler well ahead of weddings or photo shoots also leaves time for any swelling to settle. Does The Skin Shop offer a membership or financing? Yes. The Skin Shop Medspa Scottsdale offers a membership program for clients who visit regularly, and members who have left Google reviews describe it as worth it. There is also a financing and payment options page for larger treatment plans. The nurses can explain which option fits your plan when you call (480) 948-1759. How do I choose a med spa in Scottsdale? Start by asking who will perform your treatment and what their credentials are, then look for a practice that offers a thorough consultation and sets honest expectations. Read reviews for patterns rather than single comments. The Skin Shop Medspa Scottsdale is RN-owned, offers complimentary consultations, holds a 5.0 rating from 79 Google reviews and sits on N Scottsdale Rd near Shea Blvd.
