

Professional roof installation from Bork Roofing follows a careful, methodical process throughout Boise, from initial tear off through final inspection of the **Helpful hints** completed roof system. The installation process includes fasteners, ridge caps, underlayment, roofing vents, drip metal, and ice and water guards along eaves and valleys for complete protection. Bork's crews handle this full installation process using premium materials from certified manufacturers, ensuring the finished roof meets both aesthetic and performance expectations.

Bork Roofing | 1475 N Hornback Ave, Star, ID 83669 | (208) 869-6674
